

ACI celebrates its 70th Anniversary

On Sunday 29th June 2025, ACI Financial Markets Association has celebrated its 70th Anniversary.

In fact, the start of our global community of financial markets professionals started on 29th June 1955 in Paris/France, where representatives from nine countries had their initial meeting, as there was a growing need to connect, beyond national borders, with fellow professionals belonging to the same network.

70 years on and ACI FMA community is stronger than ever, and that can only be possible due to the passion, dedication and drive for excellency which are continuously shown by the members of the 61 Associations currently affiliated to ACI FMA.

So, let's celebrate this occasion together: congratulations to you as a **MEMBER**, the most important role in this community. Thank you for being a great representative of this amazing network.

My word is my bond. Once a dealer, always a dealer.
